Commitment of the New Technologies - Research Centre
of the University of West Bohemia to
"The European Charter for Researchers"

and

"The Code of Conduct for the Recruitment of Researchers"

The New Technologies Research Centre (NTC), represented by the director doc. Ing. Luděk Hynčík, Ph.D., as a part of the University of West Bohemia in Pilsen, represented by the rector, doc. Dr. RNDr. Miroslav Holeček, welcomes and fully supports the initiative of the European Commission and the recommendations given in the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

In compliance with the recommendations, we commit ourselves to implementing the principles of the Charter and the Code. By implementing both the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers, the NTC seeks to develop a human resources strategy for researchers that makes a true difference and that attracts the most excellent researchers within the European Research Area and beyond.

Many of those principles and requirements have already been implemented at NTC. Nevertheless, the adoption of the Charter and the Code will provide guidelines of orientation that will be frequently consulted by researchers as well as employers. For us, the principles and recommendations of the Charter and the Code are basic rules to support the work of researchers and to maintain the high quality of research.
