**Subject: Endorsement of the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers (Charter and Code)**

The Slovak University of Technology in Bratislava welcomes and supports the initiative of the European Commission to ensure a supportive research environment for researchers on mobility.

Having endorsed the 40 principles of Charter and Code, we notify you about our commitment to implement these principles in our institution via the Human Resources Strategy for Researchers (HRS4R).

The Slovak University of Technology in Bratislava is one of the leading research universities at the national level, with an increasing international outreach. Continuous enhancement of, amongst others, working conditions and career opportunities are one of the top priorities of this university. Our university welcomes the opportunity of internal analysis in the framework of the HRS4R and aims at embedding this process in the wide array of current activities in our institution's human resources policy.

By implementing the Charter and Code principles the Slovak University of Technology in Bratislava aims at attracting the most outstanding researchers within the European Research Area and beyond.

Best regards

prof. Ing. Miroslav Fikar, DrSc.
