**to
the European Charter for Researchers
and
the Code of Conduct for the Recruitment of Researchers**

Kunstuniversität Linz (University of Art and Industrial Design Linz), represented by its Vice-Rector for Research Dr. Manfred LECHNER, welcomes and supports the initiative of the European Commission. Several of the general principles proposed in the Charter and Code have already been implemented at the University. Especially for the implementation of a new PhD program starting this winter-term the Charter and Code represent an important framework. The University will make sure that further initiatives will be in line with the principles of the Charter and Code, which are considered by the University as basic rules to support the work of researchers and to maintain the high quality of research and will be promoted and disseminated accordingly.

Sincerely
