

Cyprus College

DECLARATION OF ENDORSEMENT

“EUROPEAN CHARTER FOR RESEARCHERS” AND THE “CODE OF CONDUCT FOR THE RECRUITMENT OF RESEARCHERS”

The Research Committee of Cyprus College, has unanimously endorsed the formal adoption of the “European Charter for Researchers” and the “Code of Conduct for the Recruitment of Researchers”. We strongly believe that such initiatives are shaping the right framework which has to underline the field of research (both at the National and European levels) and at the same time safeguards the policy and practice for the fair and non discriminatory treatment of researchers under conditions of meritocracy, fairness and transparency.

The documents have been loaded on the webpage of the Research Center of the College (<http://www.rsunit.com>) and an email was sent to all staff of the College informing them about the decision. Furthermore, the research policy of the College has been amended so as to include a special reference to both, the Charter and the Code.

Dr. Antonis Theodorou
President
Research Committee
