

EURAXESS LINKS NORTH AMERICA

Dear Colleagues!

June was full of activities which we are very pleased about. The EURAXESS Links North America team held its first EURAXESS Share event at the Creighton University in Omaha, Nebraska on June 4th. The participants coming from several universities in Nebraska, Kansas and as far as Arizona listened to various job and funding opportunities available in Europe and testimonials from Marie Curie and ERC fellows who shared their own experience in successfully applying for grants and other practical information.

Our network officially opened its doors to the researchers based in Canada during the three-day Hydrogen + Fuel Cells 2013 Conference in Vancouver welcoming over 150 interested participants at our booth. The two meetings at the Simon Fraser University and the University of British Columbia in which we introduced EURAXESS were also very successful. We are looking forward to further collaboration!

The "EURAXESS – Internationally Mobile Researchers" [group](#) on LinkedIn is growing day by day having already attracted 246 members since its launch about a month ago.

The next big event ahead of us is the **1st global EURAXESS Science Slam** taking place in all EURAXESS Links countries and hubs (ASEAN, Brazil, China, India, Japan and North America) in September 2013. The Science Slam in North America will take place on the east coast of the USA this year. Researchers (PhDs and PostDocs) from anywhere in North America will be invited to post a short 3 min video about their research project on a dedicated website. Up to 7 participants will be selected after the first round and invited to take part at the final live Science Slam. Return tickets as well as accommodation (one night) will be provided by the organizers. The winner of the Science Slam will receive a wonderful price! Stay tuned and connected via our [website](#)!

We wish you a successful month ahead.

1 EU Insight

The importance of international cooperation in research and innovation – Conclusions of the Council of the European Union

On 29 and 30th of May, 2013, the European Union's "[Competitiveness Council](#)" meeting (covering the areas "Internal Market, Industry, Research and Space" and belonging to the Council of the European Union) adopted a series of [conclusions](#) endorsing a new EU strategy for enhancing international cooperation in research and innovation. This strategy was laid down in the European Commission's Communication "[Enhancing and Focusing EU International Cooperation in Research and Innovation: a Strategic Approach](#)".

This [EU International Strategy for Research and Innovation](#) was published on the 14th of September in 2012, taking stock of the current state of the EU's international cooperation in research and innovation and developing a new approach, particularly paying attention to the implementation of international cooperation within the next framework programme "[Horizon 2020](#)" (2014-2020).

The September 2012 Commission's Communication

Addressing the [European Parliament](#), the [Council of the European Union](#), the [European Economic and Social Committee](#) and the [Committee of the Regions](#), the European Commission identified three key objectives of the broader policies of the EU which are supported by international cooperation in research and innovation:

- "Strengthening the Union's excellence and attractiveness in research and innovation as well as its economic and industrial competitiveness
- Tackling global societal challenges
- Supporting the Union's external policies"

The Commission aims at "maximising the impact of international research and innovation activities, while avoiding a costly fragmentation of efforts", which "requires the Union to complement the openness of Horizon 2020 with targeted actions in order to ensure optimal scale and scope." The strategic approach foresees as a first step the identification of areas for international cooperation along a set of criteria laid down in the document; based on these criteria the strategic approach will start out by "developing multi-annual roadmaps for cooperation with key partner countries and regions". The following country groupings are included in the Horizon 2020 proposals:

- The EFTA countries, EU enlargement countries and countries covered by the European Neighbourhood policy
- Industrialised countries and emerging economies
- Developing countries.

Infobox 1:

Competitiveness Council

The creation of the Competitiveness Council (of the Council of the European Union) in June 2002, through the merging of three previous configurations (Internal Market, Industry and Research) was a response to the perceived need for a more coherent and better coordinated handling of these matters related to the European Union's competitiveness. Depending on the items on the agenda, this Council is composed of European Affairs Ministers, Industry Ministers, Research Ministers, etc. It meets about five or six times a year.

Infobox 2: The May 2013 European Council Conclusions

Strategic Forum for International S&T Cooperation (SFIC)

SFIC is a strategic forum and an advisory body to the Council and the Commission with a view to implementing a European Partnership in the field of international scientific and technological cooperation (S&T cooperation). SFIC's objective is to facilitate the further development, implementation and monitoring of the international dimension of ERA by the sharing of information and consultation between the partners with a view to identifying common priorities which could lead to coordinated or joint initiatives, and coordinating activities and positions vis-à-vis third countries and within international fora.

About half a year later, the Competitiveness Council adopted [Conclusions](#) endorsing this September 2012 communication and enhancing the importance of the international dimension of the [European Research Area \(ERA\)](#). The Council acknowledges “the important progress towards improved international cooperation made through FP7 projects, including through the INCO Programme, and also by opening participation to third countries and contributing to the development of international cooperation flagship projects”. The Council also “stresses the importance of ensuring that Horizon 2020 facilitates cooperation among researchers from across the globe on addressing shared challenges, while giving due attention to reciprocity and respect for intellectual property rights”.

Furthermore, the Conclusions particularly recognize and stress “the important advisory work of the [Strategic Forum for International S&T Cooperation \(SFIC\)](#), its contribution to mutual learning and its role in promoting coordination of international cooperation priorities of Member States, for instance, as regards the India initiative and the building up of the Indo-European Research and Innovation Partnership”. Therefore, the Council “encourages SFIC to continue its advisory work with its initiatives such as with India, China, the USA, Brazil and others”.

The conclusions acknowledge the importance of international cooperation and strongly support the new strategic approach advocated by the Commission.

2 EURAXESS Links North America Activities

2.1 1st EURAXESS Share Event in North America

On Tuesday, June 4th, 2013 EURAXESS Links North America held its first event "EURAXESS Share: Research Job and Funding Opportunities in Europe for All" at the Creighton University in Omaha, Nebraska. The event was attended by 64 participants, most of them being researchers or members of the university management.

The participants were greeted by Dr. Gail Jensen, Graduate School Dean at Creighton University, and James Gavigan, Minister Counsellor for Research & Innovation at the European Union Delegation to the USA. James Gavigan put the 'EURAXESS – Researchers in Motion' initiative into the broad political context of EU-US scientific cooperation that strongly encourages researchers' mobility between the two continents.

Following the opening remarks, the audience was provided with extensive information on EURAXESS as well as funding and collaboration opportunities in Europe, with a focus on the EU Marie-Curie actions and ERC grants. Testimonials from Marie-Curie and ERC fellows allowed the audience to ask many questions about the rules for participation, opportunities to establish lab to lab cooperation and social aspects of international mobility. The event was followed by a cocktail reception where the participants continued in networking with each other as well as with the speakers.

The presentations and photos can be found [here](#).

2.2 EURAXESS Links going to Canada

EURAXESS Links North America officially opened up to researchers based in Canada during the "Hydrogen + Fuel Cells 2013 Conference" taking place from 16th-19th of June, 2013, at the Vancouver Convention Centre, located in Vancouver, British Columbia, Canada. HFC2013 was the sixth edition of its kind, a leading international conference for the hydrogen and fuel cell industry hosted by the Canadian Hydrogen and Fuel Cell Association.

HFC2013 featured prominent industry and government leaders from all over the world. The Exhibition and Trade Show area of the conference provided attendees with a place to network and partner with global leaders in the business, government and scientific communities. EURAXESS had a permanent booth for the whole duration of the exhibition. More than 200 participants from academia as well as private companies visited our booth. More information about the conference can be found [here](#).

2.3 1st EURAXESS Science Slam

The EURAXESS Links network is organizing the first global EURAXESS Science Slam in September 2013!

This is a scientific competition which combines solid scientific research with fun! Your 10 minutes presentation should convey your research in the most attractive, entertaining and understandable way possible.

This global event will take place in ASEAN, Brazil, China, India, Japan and North America.

More information about the exact date, time, venue, participation criteria and the price will be available very soon at the following [link](#).

3 News & Developments

3.1 The Atlantic – A Shared Resource

On 23 and 24 May, a high level event took place at the Marine Institute in Galway, Ireland, which has provided a vision for enhanced cooperation on both sides of the Atlantic and launched the **Canada - EU - U.S. Atlantic Ocean Research Alliance**.

[Read more](#)

3.2 EU2013 – Researcher Careers & Mobility Conference

A key conference on Researcher Careers and Mobility was held on 14th and 15th May 2013 in the Printworks Building of Dublin Castle under the auspices of the Irish Presidency of the European Union. On this occasion Máire GEOGHEGAN-QUINN, European Commissioner for Research, Innovation and Science delivered a keynote address.

[Read more](#) about the conference.

[Read more](#) about European Commissioner for Research, Innovation and Science's speech.

3.3 Europe: Cooperation with Industrialised countries - Supplementing the network of EU Centres in Canada and Korea

The European Commission invites proposals to supplement the network of EU Centres in Canada.

Application deadline: **28 June 2013**

[More information](#)

3.4 Woman Innovator Prize in Europe

The European Commission is launching the second edition of the Woman Innovator Prize. Applications are open until **15 October 2013**.

The contest is open to all women who have founded or co-founded their company and who have at some point of their careers benefitted from the EU's

research framework programmes or the Competitiveness and Innovation Framework Programme.

[Read more](#)

3.5 Understanding what makes cells die or survive through their level of oxygen

Current treatments for stroke, for example, are limited by our lack of understanding of how neuronal injury develops within the brain and why neurons survive or die after a stroke. This is also why we still don't have a cure for most fatal and progressive neurodegenerative disorders.

[Read more](#)

3.6 ERC President's statement on outcome of Global Research Council

The Global Research Council (GRC) that met in Berlin between 27 and 29 May 2013 has adopted an action plan towards open access, as well as a statement of principles for research integrity. The GRC, launched in May 2012, is a forum involving more than 70 research funding agencies worldwide. They pledge to find mutually acceptable paths to greater international research collaboration.

[Read more](#)

3.7 EU and Bill & Melinda Gates Foundation Partnership to Fight Diseases

The European Union and the Bill & Melinda Gates Foundation pledged on 10 June to work together to fight HIV/AIDS, tuberculosis, malaria and other poverty-related diseases that together affect more than 1 billion people worldwide. The agreement, signed in Paris today by foundation co-chair Bill Gates and European Commissioner for Research, Innovation and Science, Máire Geoghegan-Quinn, creates a new strategic partnership for research in the area.

[Read more](#)

3.8 Major pan-European study conducted on ocean acidification

More than 160 researchers across 10 European countries joined together, in what is being hailed as the first international project to focus on ocean acidification and its consequences.

[Read more](#)

3.9 Finding a cure for a rare and debilitating genetic disease

DevelopAKUre is a European Union (EU)-funded research project which is working to establish a safe, reliable treatment for a rare and hitherto incurable

disease. Caused by a genetic mutation, Alkaptonuria (AKU) leads to a severe and early-onset form of osteoarthritis and can also cause heart problems.

[Read more](#)

3.10 Unlocking the biofuel potential of algae

Biofuel extracted from algae could provide a much-needed solution to the world's increasing energy needs. The Marine algae as biomass for biofuels (Mabfuel) project is working on ways to optimise growth processes and oil yield on a commercial scale with future energy demands in mind. Early results show two specific species of algae have higher oil content when produced outdoors and thus could help address these demands.

[Read more](#)

3.11 Using gene science to breed drought-tolerant crops

Drought is one of the biggest worries for a farmer, sometimes threatening entire harvests, but a European Union (EU)-funded project is using the latest gene science to see whether the worst effects of water shortages could be averted with drought-tolerant plants.

4 Grants & Fellowships

4.1 EU programme: Marie-Curie fellowships

4 calls still open:

Call identifier	Call title	Deadline
FP7-PEOPLE-2013-CIG	Marie Curie Career Integration Grants (CIG)	18 September 2013
FP7-PEOPLE-2013-IOF	Marie Curie International Outgoing Fellowships for Career Development (IOF)	14 August 2013
FP7-PEOPLE-2013-IIF	Marie Curie International Incoming Fellowships (IIF)	14 August 2013
FP7-PEOPLE-2013-IEF	Marie Curie Intra-European Fellowships for Career Development (IEF)	14 August 2013

4.2 EU Programme: European Research Council

The ERC launched the new funding initiative, called "Proof of Concept", in March 2011, open to researchers who have already been awarded an ERC grant. ERC grant holders can apply for this additional funding to establish the

innovation potential of ideas arising from their ERC-funded frontier research projects.

Call identifier	Call title	Deadline
ERC-2013-PoC	ERC Proof of Concept Grant	03 October 2013

4.3 Europe: European Cooperation in Science and Technology (COST)

COST invites researchers throughout Europe to submit proposals for research networks and use this unique opportunity to exchange knowledge and to embark on new European perspectives. A continuous Open Call for Proposals is used to attract the best proposals for new COST Actions.

[More information](#)

4.4 Europe: European Respiratory Society: Short-Term Research Fellowship

Research Training Fellowships are established to enable young scientists and clinicians to visit a Host Unit in a (European) country other than the candidate's own, with the aim of learning a research technique not available in the Home Unit. The research training should benefit the Home Unit when the applicant returns there, by leading to research developments and activities back onsite.

Next deadline: **1 October 2013**

4.5 Austria

Austria's most comprehensive database for scholarships and research grants in German and English language offers an overview of about 1200 funding opportunities for incoming and outgoing researchers, graduates and students.

[More information](#)

4.6 Austria: Institute of Science and Technology, ISTFELLOW

IST Austria has set up a program for exceptional postdoctoral researchers partially funded by the European Union. This program funds 40 fellows for a period of two years each. The program is intended for postdocs interested in the areas that are represented by the faculty at IST Austria (physics, chemistry, mathematics...).

[Further information](#)

4.7 Belgium

Calls for proposals/calls for tenders on the Belgian Federal portal for research and innovation.

[Further information](#)

4.8 Canada: Promoting Canada-EU research

The ERA CAN project helps you to identify funding opportunities in Canadian Programs as well as funding opportunities in Europe for Canadian researchers.

[Further information](#)

4.9 Denmark: Funding programmes for research and innovation

The Danish Ministry of Science, Innovation and Higher Education has published an exhaustive guide to Danish funding programmes, and indicates 3 calls for proposals in phytosanitary, synthetic biology and health science biotechnology research with different deadlines (**July and September**).

[More information](#)

4.10 France: Overview of research exchange programs

The Office for Science and Technology (OST) located in the French Embassy to the United States (Washington DC) has published an overview of research exchange programs addressing all the different categories of researchers in various areas. A specific section of the OST website contains current calls for proposals, career opportunities, and information on French higher education programs.

[More information](#)

4.11 Germany: funding and resources opportunities for graduate and doctoral students, postdocs and faculty and researchers

The German Center for Research and Innovation based in New-York compiles all existing funding and resources opportunities for graduate and doctoral students, postdocs and faculty and researchers.

[More information](#)

4.12 Luxembourg: National Research Foundation (FNR): AFR Postdoc Proposals

Calls are open for researchers of any nationality and age (having finalised their PDH no more than eight years before the start of their project). Grants are awarded on the basis of the following criteria:

- scientific quality of the project;
- profile of the candidate;
- quality of the host institution;
- interest of the research project for Luxembourg;
- potential of the project for career development.

Next deadline: **10 September 2013**

[More information](#)

4.13 Luxembourg: National Research Foundation (FNR): AFR PhD Proposals

Calls are open for researchers of any nationality and age based on the following criteria: scientific quality of the project; profile of the candidate; quality of the host institution; interest of the research projects in the Luxembourg R&D setting.

Next deadline: **24 September 2013**

[More information](#)

4.14 Norway: The Research Council of Norway: Biotechnology for Innovation (BIOTEK2021)

The BIOTEK2021 programme has been established as part of the implementation of the Government's national strategy for biotechnology (in Norwegian only). The strategy identifies biotechnology as an enabling technology that is vital to the development of the agricultural, marine, industrial and health sectors.

Next deadline: **26 August 2013**

[More information](#)

4.15 Norway: The Research Council of Norway: The Leiv Eiriksson mobility programs (IS - BILAT)

The Leiv Eiriksson mobility programme has its basis in the "Strategy for Norway's Scientific and Technological Cooperation with North America" (2004). The objective of the mobility programme is to promote a long-term escalation of R&D collaboration with the US and Canada by facilitating research stays in these countries for Norwegian researchers and doctoral and post-doctoral research fellows as well as research stays in Norway for their US and Canadian counterparts.

Next deadline: **4 September 2013**

[More information](#)

4.16 Poland: Polish-U.S. Fulbright Commission: Fulbright Distinguished Chair in American Studies or Literature 2014-15

This grant supports teaching two or three courses or seminars per semester in American studies or literature at the undergraduate and graduate level; grants start on mid-September or February; PhD required.

Next deadline: **1 August 2013**

[More information](#)

4.17 Poland: Polish-U.S. Fulbright Commission: Fulbright Distinguished Chair in East European/Eurasian Studies 2014-15

A grant for associate or full professors with experience in mentoring PhD students. Grant Activity: teach East-European, Russian and/or Eurasian studies at the advanced undergraduate and postgraduate levels; occasional guest lectures at other Polish, Central- and East-European universities; opportunity to conduct research; grants start on mid-September or February; PhD required.

Next deadline: **1 August 2013**

[More information](#)

4.18 Poland: Polish-U.S. Fulbright Commission: Fulbright Post-Doctoral Fellowships for U.S. University Faculty 2014-15

Scholarships for U.S. citizens for lecturing and/or research in Polish academic institutions

Next deadline: **1 August 2013**

[More information](#)

4.19 Serbia: Faculty of Technical Sciences: Research Fellow (3 years fixed term) in GeoInformatics, Remote Sensing, Pattern Recognition and Data Mining

A background and research interests in Geographic Information Science, Remote Sensing and Data Mining with a PhD in Data Mining, Machine Learning, Pattern Recognition, GIScience/Geoinformatics or related topics in Computer Science is required. We encourage applications from candidates in any area of Computer Science. Successful candidates will have a proven record of research publication, will be able to demonstrate technical skills (e.g. knowledge of programming, statistics, mathematics, etc.) as well as excellent communication skills.

Next deadline: **1 September 2013**

[More information](#)

4.20 Sweden: The Swedish Research Council Formas– JPI Urban Europe – creating attractive, sustainable and economically viable urban areas

This is the second call for applications for grants for research and innovation projects in Joint Programming Initiative (JPI) Urban Europe - creating attractive, sustainable and economically viable urban areas.

Next deadline: **18 August 2013**

[More information](#)

4.21 Sweden: The Swedish Research Council Formas – Invitation to submit proposals for targeted calls with the areas of responsibility of Formas

The mission of Formas is to promote and support basic research and needs-driven research in the areas of the Environment, Agricultural Sciences and Spatial Planning. The research that is funded should be of the highest scientific quality and relevance to the areas of responsibility of the Council. Formas may also fund development projects to a limited extent.

Next deadline: **20 August 2013**

[More information](#)

4.22 Sweden: Swedish Council for Working Life and Social Research – Visiting researchers

The purpose of funding visiting researchers is to add qualified knowledge and competence to the Swedish research society within FAS' areas of responsibility. These financial contributions should primarily fund shorter stays (less than six months) for research, consultations, lectures and seminars (also at other institutions than the host institution). Grants for visiting researchers are exclusively for researchers active at non-Swedish research institutions.

Next deadline: **continuously open**

[More information](#)

4.23 Switzerland: CERN – Fellowship Program

In 2009, CERN introduced a new 'Graduate Engineering Training (GET)' scheme. CERN is already well-established as a central and vital force in the physics community, but CERN also offers outstanding possibilities for training and work experience in engineering fields. The aim of this scheme is to encourage Fellowship applications from talented engineers and should prove to be a positive step forward in showing CERN is not only an exciting place to work for physicists, but is also a leading employer in engineering fields.

Next deadline: **3 September 2013**

[More information](#)

4.24 UK: Medical Research Council (MRC) – 15 Calls for proposals currently open

Most of the research that the MRC funds is in response to proposals by scientists, however from time to time they stimulate research in priority areas by publishing call for proposals. By clicking on the link below, you will find all the calls currently open.

[More information](#)

4.25 UK: Wellcome Trust: Masters Fellowships in Public Health and Tropical Medicine

This scheme strengthens scientific research capacity in low- and middle-income countries, by providing support for junior researchers to gain research experience and high-quality research training at Masters degree level. Research should be aimed at understanding and improving public health and diseases of local, national and global relevance.

Next deadline: **1 August 2013**

[More information](#)

4.26 UK: Wellcome Trust: Training Fellowships in Public Health and Tropical Medicine

This scheme provides researchers from low- and middle-income countries - who are at an early stage in the establishment of their research careers - with opportunities for research experience and high-quality research training in public health and tropical medicine. Research should be aimed at understanding and improving public health and diseases of local, national and global relevance.

Next deadline: **27 September 2013**

[More information](#)

4.27 UK: Wellcome Trust: Senior Research Fellowships in Basic Biomedical Sciences

This scheme provides support for outstanding postdoctoral scientists based in academic institutions in the UK and Republic of Ireland (RoI). Candidates are expected to have an excellent track record in their scientific field and be able to demonstrate their ability to carry out independent research.

Next deadline: **20 September 2013**

[More information](#)

4.28 UK: Wellcome Trust: Senior Research Fellowships in Clinical Science

This scheme provides support for clinical investigators to further develop their research potential and to establish themselves as leading investigators in clinical academic medicine.

Next deadline: **20 September 2013**

[More information](#)

4.29 UK: Wellcome Trust-Massachusetts Institute of Technology (MIT) Postdoctoral Fellowships

This scheme offers opportunities for postdoctoral scientists to undertake research at the interfaces between biology/medicine and mathematics, engineering, computer, physical or chemical sciences, firstly at MIT and then at a UK institution.

Candidates will be expected to identify an important biomedical research question and to propose a personal interdisciplinary training programme to achieve their research aims.

Next deadline: **12 July 2013**

[More information](#)

4.30 UK: The Royal Society of Edinburgh: International Exchange Programme – Bilateral

The International Exchange Bilateral Programme supports short-term visits to and from Scotland, to enhance the research capabilities of individual researchers, develop international collaborative links, and enable participation in international research programmes.

Next deadline: **31 August 2013**

ITE Annual Meeting and Exhibit	August 4-7	Boston, MA, USA	Institute of Transportation Engineers	Link
55th Annual Meeting	August 4-7	Washington, DC, USA	National Council of University Research Administrators	Link
23rd World Mining Congress	August 11-15	Montreal, Québec, CAN	Canadian Institute of Mining, Metallurgy and Petroleum	Link
16th International Congress on Photosynthesis Research 11-16 August 2013	August 11-16	St. Louis, MO, USA	Washington University in St. Louis	Link
25th International Conference on Amorphous and Nanocrystalline Semiconductors	August 18 - 23	Toronto, Ontario, CAN	University of Toronto	Link
246th ACS National Meeting & Exposition	September 8-12	Indianapolis, IN, USA	American Chemical Society	Link
AIAA SPACE 2013 Conference & Exposition	September 10-12	San Diego, CA, USA	The American Institute of Aeronautics and Astronautics	Link
AAAR 32nd Annual Conference	September 30-October 4	Portland, OR, USA	American Association for Aerosol Research	Link

7 About EURAXESS Links North America

EURAXESS Links North America is a network of thousands of European and non-European researchers, scientists, and scholars throughout North America. This multidisciplinary network includes members at all stages of their careers. It allows them to connect with each other and with Europe, ensuring that they are recognized as an important resource for European research whether they remain in North America or return to Europe.

For further information about EURAXESS Links North America, please visit: <http://usa.euraxess.org>.

To sign up for membership in our network, and in the virtual SINAPSE community of researchers abroad, please go to our website and click on the Join the EURAXESS Links North America community hyperlink on the right-hand side of the [page](#). Membership is free!
